Preface

The Construction Industry Council (CIC) is committed to seeking continuous improvement in all aspects of the construction industry in Hong Kong. To achieve this aim, the CIC forms Committees, Task Forces and other forums to review specific areas of work with the intention of producing Alerts, Reference Materials, Guidelines and Codes of Conduct to assist participants in the industry to strive for excellence. The CIC appreciates that some improvements and practices can be implemented immediately whilst others may take more time to adjust. It is for this reason that four separate categories of publication have been adopted, the purposes of which are as follows:

Alerts

Reminders in the form of brief leaflets produced quickly to draw the immediate attention of relevant stakeholders the need to follow some good practices or to implement some preventative measures in relation to the industry.

Reference Materials

Reference Materials for adopting standards or methodologies in such ways that are generally regarded by the industry as good practices. The CIC recommends the adoption of these Reference Materials by industry stakeholders where appropriate.

Guidelines

The CIC expects all industry participants to adopt the commendations set out in such Guidelines and to adhere to such standards or procedures therein at all times. Industry participants are expected to be able to justify any course of action that deviates from those recommendations.

Codes of Conduct

Under the Construction Industry Council Ordinance (Cap 587), the CIC is tasked to formulate codes of conduct and enforce such codes. The Codes of Conduct issued by the CIC set out the principles that all relevant industry participants should follow. The CIC may take necessary actions to ensure compliance with the Codes.

If you have attempted to follow this publication, we do encourage you to share your feedback with us. Please take a moment to fill out the Feedback Form attached to this publication in order that we can further enhance it for the benefit of all concerned. With our joint efforts, we believe our construction industry will develop further and will continue to prosper for years to come.

FOREWORD

Performance Bonds

Performance Bonds are one of the means of protection against the non-performance of the contractor in construction contracts. They are an undertaking by a bondsman or surety to make a payment to the employer in the event of non-performance of the contractor. The cost of the bond is usually borne by the contractor, therefore it is likely to be reflected in the contractor's tender price. It may also deter some otherwise competent contractors from tendering for projects, particularly in a booming construction market.

With on-demand performance bonds, the bondsman pays an amount of money set out in the bond immediately on demand by the employer with little obligation on the employer to substantiate the contractor's non-performance. The onus is on the employer to act in a responsible manner when requiring on-demand bonds in construction contracts.

Apart from the requirement of bonds, employers should, whether by themselves or through the engagement of professional consultants, exercise diligence in their procurement process and project supervision to ensure an acceptable level of performance from the contractor and the satisfactory delivery of the construction project.

The CIC published "Procurement Alert No. 001/14 - Use of On-Demand Performance Bonds in Construction Contracts" in September 2014, it contains recommendations on the considerations for adopting on-demand bonds for construction contracts and good practices on their responsible use.

Background

Concerns were raised that stringent terms against contractors were becoming increasingly common in construction contracts; amongst which was the requirement on contractors to provide on-demand performance bonds or other cash equivalent securities. The issue was carefully examined by the Special Group on On-Demand Performance Bonds established under the previous Committee on Procurement and Subcontracting of the Construction Industry Council. Though the use of On-Demand Performance Bonds is not encouraged, it was recommended that a "Standard Form of On-demand Performance Bond with Conditions" ("Standard Form") could be produced as a fair and reasonable option to pursue on-demand bonds in construction contracts if this type of bond is decided to be adopted.

FOREWORD

If after due consideration it is decided to adopt an on-demand performance bond in the construction contract, it is recommended that the Standard Form contained herewith should be used whenever possible to ensure the bond is pursued in a fair and equitable manner, without undue allocation of risks to the contractor.

Features of the Standard Form of On-Demand Performance Bond with Conditions

The Standard Form was drafted with features incorporating suggestions and feedback from industry stakeholders as well as the banking and insurance sectors, which represented an equitable alternative to other performance bonds seen in the market.

- The bond will be released at contract completion (as defined in the contract)
- Allow for reduction of bond amount in stages (e.g. milestone or sectional completion)
- A “long-stop” expiry of the bond (one year after practical completion is suggested) to avoid the bond being effective indefinitely
- The bond may only be called when the contract certifier has certified in writing that the contractor is in breach of the contract
- The amount demanded is limited to the amount certified to be due and payable by the contractor for its breach

Note on the Use of the Standard Form of On-Demand Performance Bond with Conditions

The Standard Form is a legally binding document. Those intending to use the Standard Form should fully understand its contents and the obligations placed on the contracting parties when executed. Professional advice is strongly recommended when deciding to adopt the Standard Form.

Key stakeholders, including industry bodies from the banking and insurance sector were consulted during the drafting of the Standard Form; the content of which has been reviewed and found acceptable from the perspective of the bondsman. Amendments or modifications to the Standard Form are strongly discouraged to avoid any complications and uncertainties.

- (a) With effect from the date hereof, the Bondsman irrevocably and unconditionally agrees to pay on demand from the Principal, any and all amounts due and payable under the Reference Contract up to an amount not exceeding

.....
.....
..... [amount in words and currency]

in total (the “**Maximum Amount**”) on the terms set out in this On-demand Performance Bond.

- (b) This On-demand Performance Bond forms a separate and independent contract between the Bondsman and the Principal. Accordingly, the Bondsman is in no way concerned with or bound by, and is under no duty to investigate, the relationship between the Principal and the Contractor under the Reference Contract.

2 Demand by Principal

2.1 Presentation and form of demand

- (a) Any demand by the Principal under this On-demand Performance Bond must:

(i) be made by way of a written notice substantially in the form of the Schedule of this On-demand Performance Bond, and signed by, or on behalf of, the Principal (each such notice being a “**Notice of Demand**”);

(ii) be accompanied by a notice in writing from

..... **[NOTE 2]**
or such other person specified by the Principal by notice in writing delivered to the Bondsman by the Principal’s Bank on behalf of the Principal (“**Certifier**”) certifying:

(A) that the Contractor is in breach of its obligations under the Reference Contract;

(B) that the Contractor:

(aa) has not taken steps which the Certifier considers adequate to remedy the breach despite being given

- more than 14 calendar days' notice by the Certifier to remedy the breach; or
- (ab) has committed a breach that gives rise to an immediate right by the Principal to terminate the Reference Contract; and
 - (C) the amount due and payable by the Contractor to the Principal under the Reference Contract as a result of the breach;
- (iii) state the amount demanded, which shall not exceed the lesser of:
- (A) the amount certified by the Certifier as being due and payable by the Contractor to the Principal under the Reference Contract in the notice referred to in clause 2.1(a)(ii); and
 - (B) the Maximum Amount less the aggregate of:
 - (aa) any amounts previously paid under this On-demand Performance Bond; and
 - (ab) the amount of any reduction in the amount payable under this On-demand Performance Bond;
 - (iv) be delivered to the Bondsman by the Principal's Bank on behalf of the Principal in accordance with the provisions of clause 7; and
 - (v) be received by the Bondsman on or before the Expiry Date (as defined in clause 5).
- (b) Each Notice of Demand appearing to the Bondsman to be duly executed, when delivered together with a Certifier's notice in writing appearing to the Bondsman to comply with clause 2.1(a)(ii), shall be deemed to be a complying demand, and shall be conclusive evidence of the quantum of the demand, the existence of a breach under the Reference Contract, and for all other purposes under this On-demand Performance Bond.

2.2 Partial demand

A demand may be made for less than the Maximum Amount.

2.3 Multiple demands

Multiple demands may be made on this On-demand Performance Bond provided that the total amount of all demands does not exceed the Maximum Amount.

Notes for Model Clause

NOTE 1

When deciding whether to adopt an on-demand performance bond for a construction contract, it is recommended that the Principal should evaluate carefully the necessity of requiring an on-demand performance bond, taking into consideration the risk profile of the project and the suite of alternative risk management tools available. Alternatives include:

- (a) personal or parent company guarantees;
- (b) appropriate retention amount;
- (c) stringent financial checks on tenderers;
- (d) selection of a contractor / sub-contractor with a good reputation, a sound financial history and a realistic competitive price; and
- (e) a pro-active approach to promoting good performance through diligent management, equitable risk sharing and a realistic construction programme.

For more information, see the Construction Industry Council's Procurement Alert No. 001/14, *Use of On-Demand Performance Bonds in Construction Contracts*.

NOTE 2

Annex a copy of the Construction Industry Council's Standard Form of On-demand Performance Bond for the Construction Industry.

NOTE 3

Due consideration should be given to determining a bond amount that is proportionate to the complexity, size and value of the project and the level of risk involved, while providing adequate protection for the beneficiary.

NOTE 4

Due consideration should be given to reducing the bond amount upon issue of the Certificate of Practical Completion (or equivalent document). Where the Contract provides for sectional completion, consideration should also be given to reducing the bond amount on the completion of each section.

NOTE 5

The On-demand Performance Bond should specify a "long-stop" termination date to ensure that the bond is not open-ended (for example, in the event that the completion of the works is substantially delayed). It is recommended that the date should be not sooner than 1 year after the Date for Practical Completion (or equivalent) specified in the Contract.

NOTE 6

The On-demand Performance Bond should have an appropriate termination date linked to the issue of a particular document, such as the Certificate of Practical Completion, Defects Rectification Certificate or Occupation Permit. The document should be specified here. If the Certificate of Practical Completion is selected, consider whether clause 1.5(b) is necessary.
