

FOR IMMEDIATE RELEASE

## **The CIC Publishes Reference Material on Safety Roles and Responsibilities of Key Stakeholders in the Hong Kong Construction Industry**

**Hong Kong • 31 January 2022** - The Construction Industry Council (CIC) released the *Reference Material on Safety Roles and Responsibilities of Key Stakeholders in the Hong Kong Construction Industry* (Reference Material). The Reference Material aims to encourage the practice of "Safety is Everybody's Business."

With the introduction of the roles and responsibilities listed out in the stakeholder model, the CIC hopes all stakeholders will make use of this reference material as a good practice reference to perform the responsibilities that they may require to take according to their roles.

Ir Dr. Derrick PANG, Chairperson of the Committee on Construction Safety of the CIC said, "The Reference Material listed out the stakeholder's roles and responsibilities under different positions and situations. The safety performance of construction industry will take a big step forward if every stakeholder truly fulfills the responsibilities listed in the stakeholder model."

The *Reference Material on Safety Roles and Responsibilities of Key Stakeholders in the Hong Kong Construction Industry* can be downloaded under "Reference Materials" of the "Publications" webpage from CIC's website: [www.cic.hk](http://www.cic.hk)

### **About the Construction Industry Council**

The Construction Industry Council (CIC) was formed in 2007 under the Construction Industry Council Ordinance (Cap. 587). The CIC consists of a chairman and 24 members representing various sectors of the industry including employers, professionals, academics, contractors, workers, independent persons and Government officials.

The main functions of the CIC are to forge consensus on long-term strategic issues, convey the industry's needs and aspirations to the Government, provide professional training and registration services, and serve as a communication channel between the Government and the construction industry.
