

FOR IMMEDIATE RELEASE

**The CIC Imposed Regulatory Action Against Registered Companies
under the Registered Specialist Trade Contractors Scheme in Relation to
a Fatal Incident at a Construction Site in Sai Kung**

Hong Kong • 24 November 2025 – The Construction Industry Council (CIC) considers "construction safety" as the cornerstone of industry development. In response to a fatal incident at a construction site in Sai Kung on 22 November 2025, the Committee on Registered Specialist Trade Contractors Scheme (Com-RSC) of the CIC has suspended the registration of all designated trades of three registered companies concerned in accordance with the regulatory regime under the Registered Specialist Trade Contractors Scheme (RSTCS). These companies include the main contractor of the site and the subcontractors for the relevant electrical and mechanical trades.

The three registered companies concerned were on the CIC's Register of Registered Specialist Trade Contractors (RSTC) and Registered Subcontractors (RS). The Com-RSC has issued written notification to the registered companies concerned to suspend their RSTCS registration with immediate effect (normally 3 months). The registered companies concerned are required to conduct an independent safety audit to review their safety management system, submit an improvement plan based on the results of the safety audit and complete the implementation of the improvement measures. The Com-RSC will consider lifting the "immediate suspension" upon the completion of an independent safety audit to the satisfaction of the Com-RSC by the registered companies concerned.

The CIC will continue to stringently follow up with registered companies involving in serious incidents in accordance with the regulatory mechanism under the RSTCS.

About the Construction Industry Council

The Construction Industry Council (CIC) was formed in 2007 under the Construction Industry Council Ordinance (Cap. 587). The CIC consists of a chairman and 24 members representing various sectors of the industry including employers, professionals, academics, contractors, workers, independent persons and Government officials.

The main functions of the CIC are to forge consensus on long-term strategic issues, convey the industry's needs and aspirations to the Government, provide professional training and registration services, and serve as a communication channel between the Government and the construction industry. Please visit www.cic.hk for further details.
